AMENDMENT

Sir:

Applicant wishes to amend the above identified application as follows:

In the claims:

Please amend claims 1, 2, 8 and 33 as follows:

B' could
1. (Amended) In a system having a first signal which is a video type signal which carries an image and at least one second signal which may be an audio type signal the method of marking said first signal to facilitate later determination of the timing of said first signal relative to said second signal, said method including the steps of;

marking said first signal with a marker carried as part of said image in response to the occurrence of a particular event in said second signal said marking being such
